To Whom it May Concern

Re: Reference - Neil Burke Joinery Ltd

Neil Burke Joinery Ltd has successfully provided our clients with bespoke joinery and cabinetry in recent design projects undertaken by our office. Lately, two projects have been carried out in private houses situated in Kensington Palace Gardens, London and both were associated with The Crown Estate.

The most recent works included a feature staircase fabricated in solid American Walnut incorporating a structural glass balustrade. We were particularly impressed with NBJ's proficiency in setting out the complex geometry of the stair at their premises and with the quality of NBJ's finishing and attention to detail.

We would gladly work with Neil Burke Joinery again in future projects.

Yours faithfully

NICK MARSH
